

Track Recessed-Trimless 48V

48-BABB -

DESCRIPTION

The TRACK 48V line offers a complete program of low-voltage tracks for indoor use. Each track, made of extruded aluminum, is available in white and black. There are 4 electrified copper conductors; two lines are dedicated to power supply, and 2 lines are used for data. Various installation types are available: Ceiling-Wall, Suspension, and Recessed.
