

### Track 6-220V Surface

50223NV -

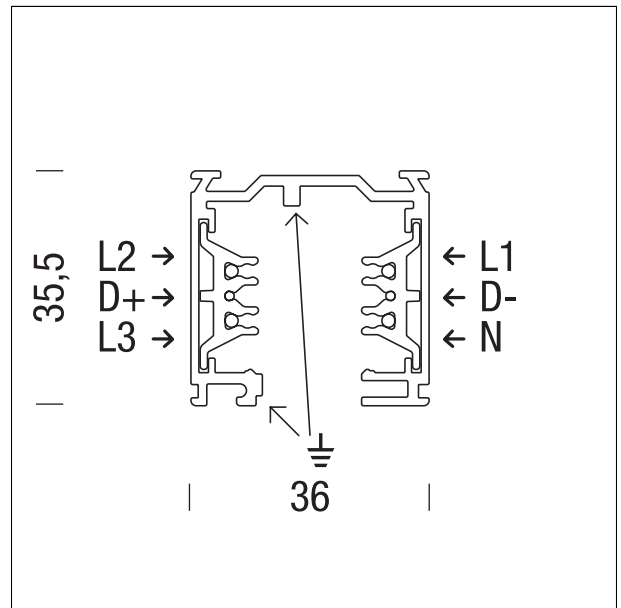

#### DESCRIPTION

Track 6 is an aluminum track with 6 copper conductors. Specific accessories allow for recessed, suspended, and ceiling installations. It allows the implementation of DALI systems with three separate switches using the common neutral conductor and two D+/D- signal conductors. The track is available in white and black, in lengths of 1, 2, and 3 meters. Thanks to its versatility, Track 6 is widely used in professional installations for showrooms, retail spaces, and common areas.

#### PRODUCTS CHARACTERISTICS

installation type	<b>Ceiling or suspension</b>
material	<b>aluminum</b>
Colour	<b>Black</b>
Dimensions	<b>3000 mm.</b>

#### ELECTRICAL CHARACTERISTICS

feeding	<b>220÷240 V</b>
Insulation class	<b>Classe I</b>
