

DRV8025

RGBW Dimmer Kit for managing 24 V DC Striped luminous intensity and colour. Complete with wireless RF control and remote dimmer for signal reception. The user can set the brightness, colour and dynamic effects of the Striped directly from the remote control. It achieves adjustment of static and dynamic colours and luminous intensity as well. Maximum operating distance from the remote control up to 15 m. in free air.

Power	192 W
control	Remote control
Rated voltage	24V DC
Output voltage	24V DC
Output current	4x 2A
Insulation class	Classe III
Dimensions	45 x 13 mm. h 5 mm.

RGB W control system
