

King

EST002 - GU10 LED/HAGS - max. 50 W - Squared

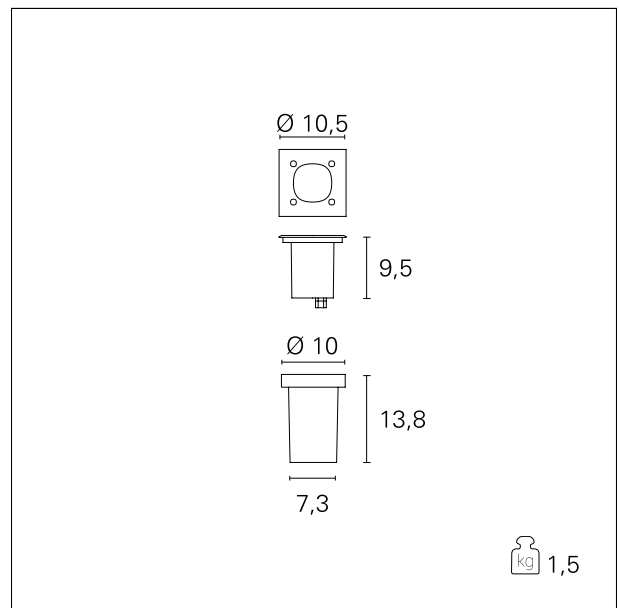

DESCRIPTION

King is a walkable recessed floor fixtures ideal for outdoor installations; complete with round or square AISI 304 stainless steel ring, particularly thin and with flared edge to prevent accidental tripping. Its GU10 socket allows the use of interchangeable LED lamps (not included) by choosing the opening beam according to the selected source. The tightness of the fixture is guaranteed by the coupling between the ring and the body obtained with four allen screws which guarantee the waterproofness of the optical compartment even after changing the lamp. The high build quality and interchangeability of the lamp make King a particularly long-lasting luminaire. King is supplied with the relative PVC cockpit.

PRODUCTS CHARACTERISTICS

installation type	Small Ingrounds
material	Aluminum die casting
Color	AISI 304 steel
Power	max. 50 W
Dimensions	10,5 x 10,5 cm.
net weight	1,5 kg.

ELECTRICAL CHARACTERISTICS

feeding	220÷240 V
driver	On:Off
Insulation class	Class I

MECHANICAL CHARACTERISTICS

product IP rate	IP67
IK	IK10
