

Wet

EST156 - max. 50 W - lamp GU10 Led/HAGS (not included)

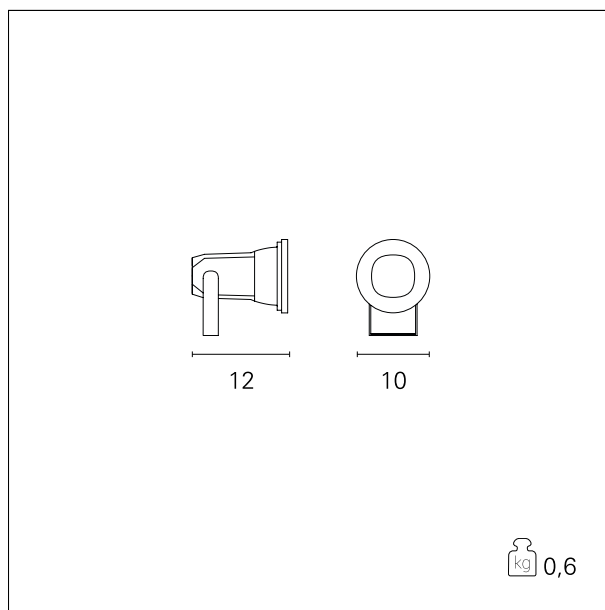

DESCRIPTION

Wet is an outdoor projector made of die-cast aluminum, available in three different anthracite, grey and green colors, which are best combined with the most traditional installations for lighting gardens and small areas. It is completed with traditional GU10 Led sources, interchangeable thanks to the removable front ring; this is fixed to the body with four allen screws that ensure the seal against the penetration of moisture. The position of the source is set back to limit direct glare. **Wet** is complete with H05RN-F cable and IP67 steel cable gland.

PRODUCTS CHARACTERISTICS

installation type	Outdoor projectors
material	Aluminum die casting
Finish	Painted
Color	Gray
Power	max. 50 W
net weight	0,60 kg.

ELECTRICAL CHARACTERISTICS

feeding	220÷240 V
driver	On:Off
