

Brick

EST51002 - 15 W / 3000 K / CRI >80

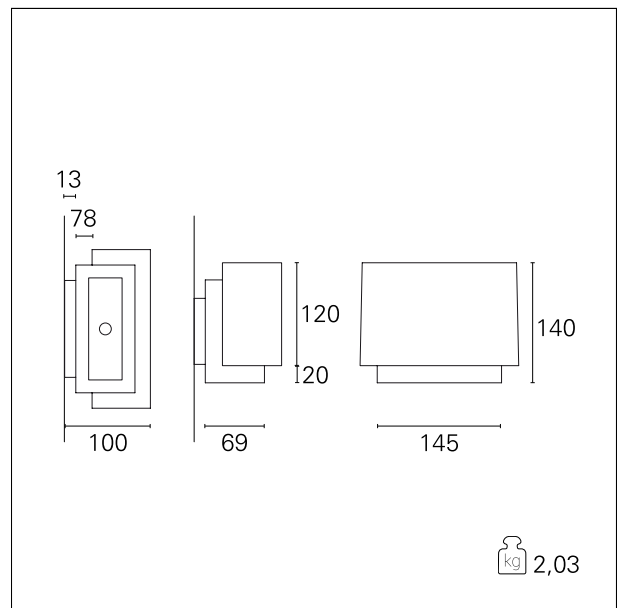

DESCRIPTION

Brick is an outdoor projector made of painted die-cast aluminum. It distinguishes itself for two possible installation ways: ground or wall installation. Brick is suitable therefore for the vertical lighting of facades and walls creating grazing light effects or wide beams of light projected horizontally. The shape of the body of the fixture allows to shield the light to limit direct glare; the protection glass is flush mounted with the body to prevent stagnation of dust on its surface. Complete with driver included in the body and high efficiency CoB led, Brick can be quickly installed thanks to its fixing base, which can be separated from the body and already drilled for In/Out wiring.

PRODUCTS CHARACTERISTICS

installation type	Wall and Ceiling Mounted
material	Aluminum die casting
Color	White
Power	15 W
Lumen output - Full emission	660 lm
net weight	2,03 kg.

ELECTRICAL CHARACTERISTICS

feeding	220÷240 V
driver	On:Off
Insulation class	Class I

MECHANICAL CHARACTERISTICS

product IP rate	IP65
-----------------	-------------

Brick

EST51002 - 15 W / 3000 K / CRI >80

LED SOURCE DETAILS

led source type	CoB Led
Light source connection	LED
Light temperature	3000 K
CRI	CRI >80

LIGHTING DETAILS

emission	Indirect
optic	90°
