EST54211 - 18 W / 3000 K / CRI >80

DESCRIPTION

Recessed fixtures are primary elements in contemporary lighting design choices for creating highlights and dramatic lighting effects. In this product line, you'll find our best-selling items in the outdoor recessed program. The selection covers various light outputs, dimensions, LED types, optics, and adjustability. The fixture consists of a die-cast aluminum structure in which drivers, optics, and LED components are housed. Great care is taken in selecting the quality of die-casting, painting, and additional components. All models have a ring made of stainless steel AISI 316L, which, combined with specifically designed gaskets, provides the necessary sealing guarantees for every installation. Our offering is structured into two sections: CoB and Power LED.
