

Lane

IND05008 - Linear Pendant - l. 750 mm. - 150 W - 5000 K / 150 W / 5000 K / CRI > 80

DESCRIPTION

The Lane series is composed by "linear Hi Bays" luminaires, particularly suitable for the lighting of warehouse lanes and indoor production areas. All products are made in extruded aluminum to improve heat dissipation, keeping the operating temperature at optimum levels and ensuring the durability of the LEDs over time. Available in two different lengths, these products are equipped with special optical lenses used to obtain symmetrical, asymmetrical and elliptic light emissions. Drivers and LEDs are properly selected among "prime label" electronic components. Fixing adjustable brackets for ceiling, wall and suspension installation are available to complete this series. (suspension chains are not included).

Switch **On÷Off**
